# Universal Compatibility with iOS, Android & Windows

As businesses expand and embrace new technologies, modern point-of-sale (POS) solutions are the expectation. Grow and stay competitive by offering cloud-based printing and seamless compatibility with the latest devices.

OPTIMIZED PRINTING ACROSS ALL OPERATING SYSTEMS

EMPOWERING SOFTWARE DEVELOPERS WITH ADVANCED TOOLS

At Star, we're committed to fostering a rich ecosystem for software development. Our toolkits are designed to streamline your software integration process:

- **StarPRNT SDK**: A comprehensive solution supporting iOS, Android, and Windows, enabling printing from a multitude of devices.
- **StarXpand SDK:** Enhancing cross-platform functionality with easy-to-use features for iOS and Android applications.

iOS:

- Apple MFi-certified Bluetooth for optimal connectivity (select models only)
- Connect and charge through USB-C or Lightning
- Consistent performance with iOS devices

ANDROID:

- Simple, reliable Bluetooth connectivity
- Android Open Accessory (AOA) support with the TSP143IVUE and mC-Label3 printers
- Streamlined pairing with Android across all interfaces

WINDOWS:

- Effortless connection to Windows devices across all interfaces
- Hassle-free Bluetooth connectivity
